OUR DIFFERENCE

- ⊕ Why use Straightcurve® 28
- ⊕ Entire Product list 30

Decisions decisions... Straight or curved?

Deciding what you need or simply seeking inspiration? At some point there comes a time to choose if the lines in your garden will be straight or curving. The product range is designed to have solutions for both, so it's helpful to know just what you want!

STRAIGHT

Hardline™ is the heavy duty option for strong straights with a foot to make them sturdy, it's so grounding!

Rigidline™ is suited for firm straight lines as it is more rigid than Flexline™.

CURVED

Use the Flexline™ range for organic and flowing lines. As they flex rather than bend you can make all curves effortlessly by hand on site as you go, it comes naturally!

COMBINATIONS

It's OK to have some of each in a garden too. Our Rigidline™ will join with our Flexline™ of the same height.

Finish choices

The entire Straightcurve® range is available in a weathering steel or galvanised finish. Perfect for whatever look you are going for!

WEATHERING STEEL

Weathering steel is an alloy that develops a rusty-looking protective patina, giving a natural finish.

GALVANISED STEEL

The galvanised look is for people who prefer a grey/silver finish and is longer lasting.

Discreet joins
Hidden fixings for
a neat finish

Get the look!

Choose a modern galvanised or natural weathered finish.

Straight lines stay true
Stabilising foot prevents movement

Got to keep them separated!

Use the Hardline™ range for strong straight lines that stay true over time.

straightcurve®

In-ground solutions

Perfect for!

- ✓ Lawn barriers
- ✓ Pathway edges
- ✓ Separating materials like stone and mulch

Please visit our website for full terms and conditions

In-ground solutions

75mm high x 2200mm Rigidline™

IDEAL FOR

- ✔ Straight lines and geometric designs
- ✔ Straight garden paths and lawn areas
- ✔ Decorative stone areas
- ✔ Angular tree surrounds
- ✔ Hard soils where trenching is difficult

USE AS

- ✔ Divider between gravels/woodchips/ mulches etc
- ✔ Paving, compacted stone and artificial turf edge
- ✔ Lawn edge for non-invasive grasses

Why use Straightcurve®?

Jaim - Green Horizons Landscape Construction

Alessio - Alessio's Gardens

Jaiden - Deep Green Landscaping

Mirek - Waterwise Landscaping

Wanda - Wanda's Gardening & Landscaping

Landscaper & DIY user benefits

DESIGNED FOR DIY

NATURALLY FLEXIBLE, EASY TO CURVE

STRAIGHT LINES STAY TRUE

DISCREET, NEAT JOINING

QUICK TO INSTALL

SMOOTH ROLLED TOP EDGES

GREAT BENEFITS

- ✓ Easy and quick installation
- ✓ Each connection is always right
- ✓ Suitable for soft, hard or concrete surfaces
- ✓ Natural looking finish
- ✓ Durable and strong – won't crack, warp or shift later
- ✓ Easy combinations of rigid and flexible edges.
- ✓ Products made for straight lines and curves
- ✓ No need to concrete edges in place
- ✓ No welding required
- ✓ Sold in sets with stakes and connectors.
