ClickConnect™

FOR RETAIL CUSTOMERS

ClickConnect™ by Straightcurve® makes garden edging easy with no special tools required. Everything you need comes in one box, and with simple instructions, you can install it quickly and hassle-free.

Everything you need is in the box.

No special tools required, just a hammer and spade.

Take it home in your car, no delivery needed.

No dirty hands when handling the product.

Flexible design that curves easily without pre-rolling.

Weatherproof steel with a long-lasting protective patina.

Works on both hard and soft soil.

Make custom corners in seconds.

QR codes link to detailed installation instructions.

Fully engineered for peace of mind.

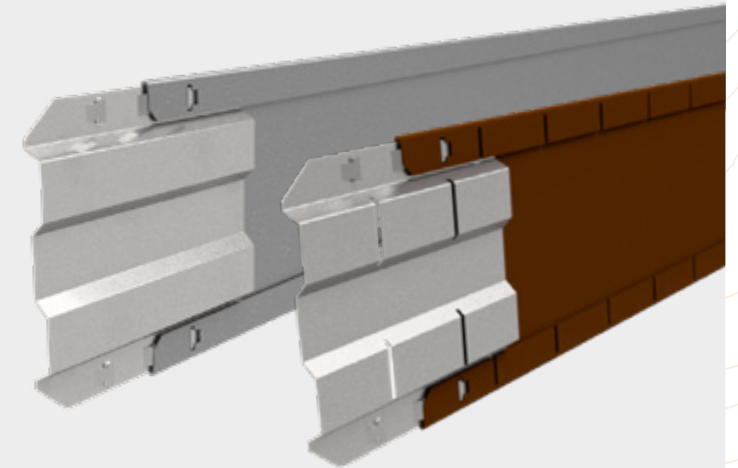

Perfect for DIY and strong enough for professionals.

Strong and long-lasting connections for durability.

What's New?

- ✓ Notch spacing is reduced to allow for smoother curves
- ✓ Patented ClickConnect™ connector plate (screwless connection, no more screwing or aligning holes)
- ✓ Top and bottom symmetrical (no top/bottom or left/right)
- ✓ Smooth front, no more visible screws or pop-rivets or both
- ✓ The new symmetrical form allows bending corners by hand without scoring a line or cutting
- ✓ Slightly shorter lengths for easier transport
- ✓ All products in sets packed in a box, so everything you need for installation is in one place

Simply Better
